

MOUNTAIN PINE PRESSURE TREATING SUPERFUND SITE

Plainview, Yell County, Arkansas

EPA Region 6

EPA ID# ADR049658628

State Congressional District 02

Updated: November 04, 2002

SITE DESCRIPTION

Size and Location:

The site located on a 95 acres tract of property of which approximately 15-20 acres are abandoned Wood treatment facilities and comprises the Mt. Pine Pressure Treating Superfund Site. Approximately 45 acres of this tract is timberland and the remainder is grassland. The property is bordered on the north by State Highway 28, on the east by the town of Plainview, Arkansas on the south by grass and woodlands, and on the west by Sunlight Bay Road. The geographical coordinates of the site are 34° 59' 00" North latitude and 93° 18' 12" West longitude.

Setting and History:

The Mountain Pine Pressure Treating (MPPT) Site is two separate, inactive abandoned wood pressure treating facilities: The MPPT plant and the chromate copper and arsenic (CCA) plant which operated from March 1962 until about February 1986. Plainview Lumber Co. is stated to have operated from 1965 to 1986; the facility re-opened briefly during the summer of 1989 but operational conflicts brought about closure. The Site includes both inactive wood preserving facilities where structural timbers were pressure-treated with solutions of pentachlorophenol (PCP) at the MPPT plant, and chromate copper and arsenic at the CCA plant.

Population: Plainview = 685, Yell County = 17,601.

WASTES AND VOLUMES

- z The EPA conducted a Removal Action to alleviate liquid and sludge releases from a Recovery Holding Pond (RHP) beginning December 11, 1987. The sludge Removal Action activities contained approximately 2,500 cubic yards of sludge mixing with solidification additives beneath a 2-foot cap which was constructed by EPA during February 25th to 29th, 1988.

SITE ASSESSMENT AND RANKING

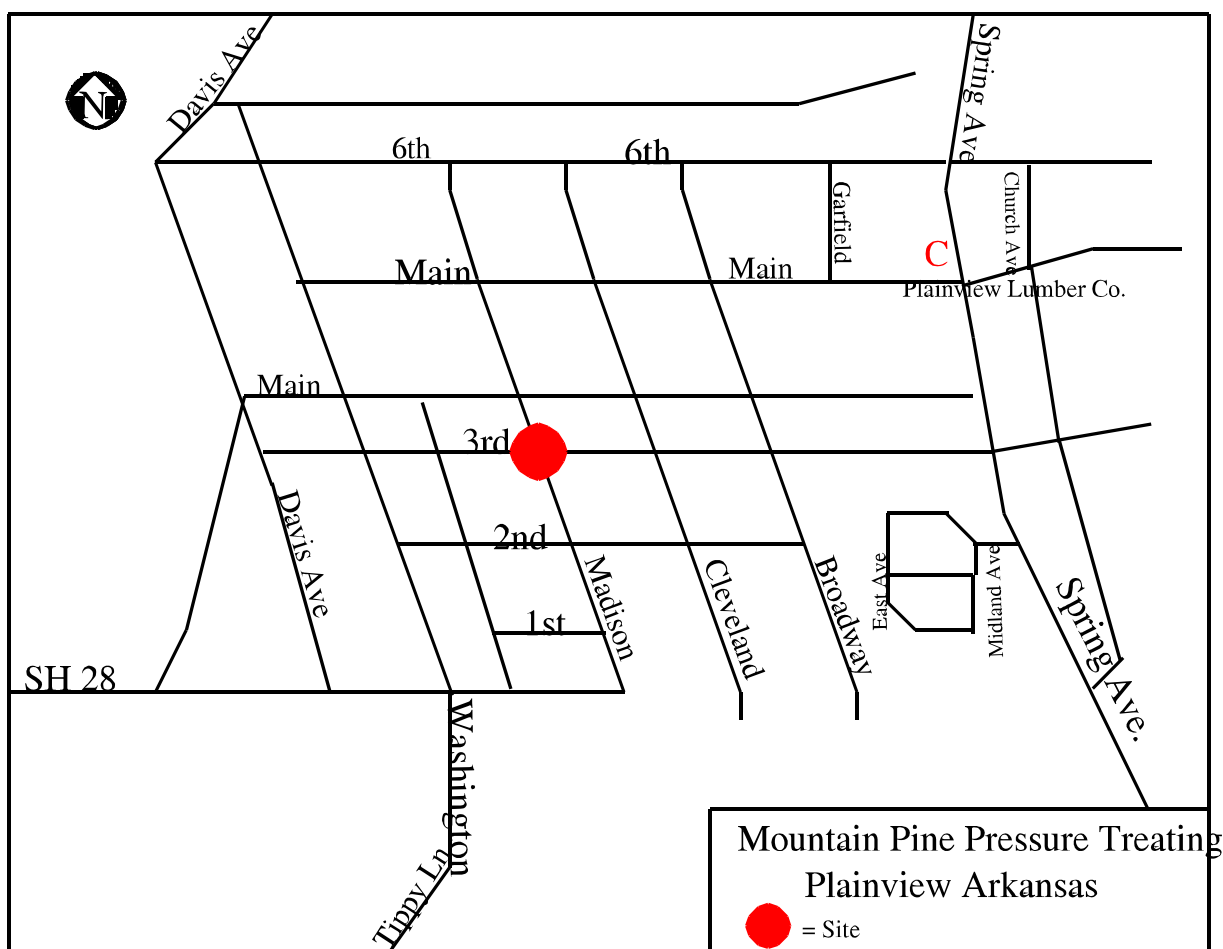

NPL LISTING HISTORY

HRS Score : 50.00

Proposed Date: 4/23/99
